

Know Your Costs Before Your Visit

Canopy Health's Cost Estimator tool provides estimates for many common services and procedures performed within our network. We aggregate these figures with our alliance partners to provide accurate costs regardless of where you or your employees seek treatment or which physicians they visit.

Refreshingly Clear

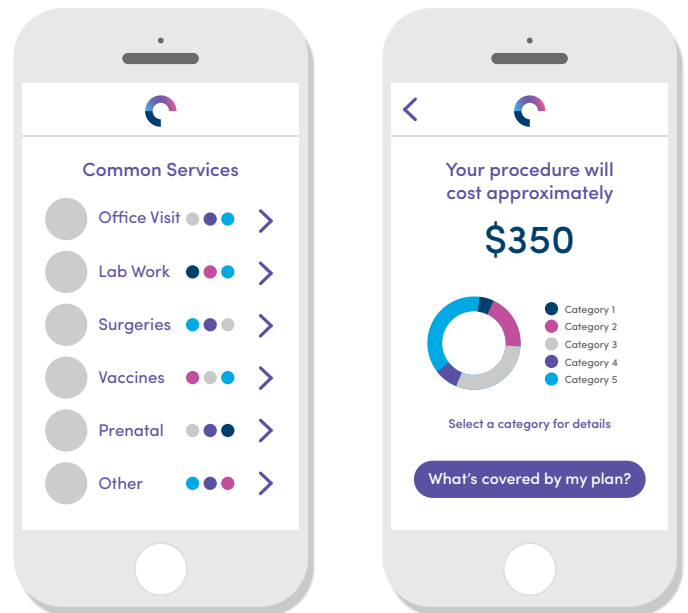

The Cost Estimator tool allows members to track their healthcare spending throughout the year, whether they have deductible plans or are paying copays. It helps them monitor how much they are spending, create a reasonable budget, and reassess their needs when it comes time to renew their plans. Members know their costs and can plan accordingly!

Easy to Access

The Cost Estimator tool is available to every Canopy Health member at no extra cost and is easily accessible through the **MyCanopyHealth** mobile app and member portal on our website. For more information or to help you or your employees troubleshoot the Cost Estimator tool, please call **888.822.6679** or visit **CanopyHealth.com**.

One Step Closer to Costs

Members can select from a range of common services, then learn its likely cost before they proceed.
