

# Urgent Care Centers in San Francisco

While it's best for members to see their personal doctor for most healthcare concerns, at times you may need more immediate care outside of regular office hours, but may not require life-saving care from a hospital emergency room physician. Canopy Health alliance partners have dozens of urgent care centers across the Bay Area available to all Canopy Health members for non-life threatening illnesses or injuries.

Please see the list of San Francisco urgent care centers on the second page.
