

# Video Visits Offer Easy Access to Care

**You and your employees deserve great care when and where you need it.** As part of our commitment to providing easy access to care, Canopy Health offers members virtual care Video Visits. You and your employees can access a skilled and experienced primary care physician around-the-clock directly from your phone.

## Affordable Care

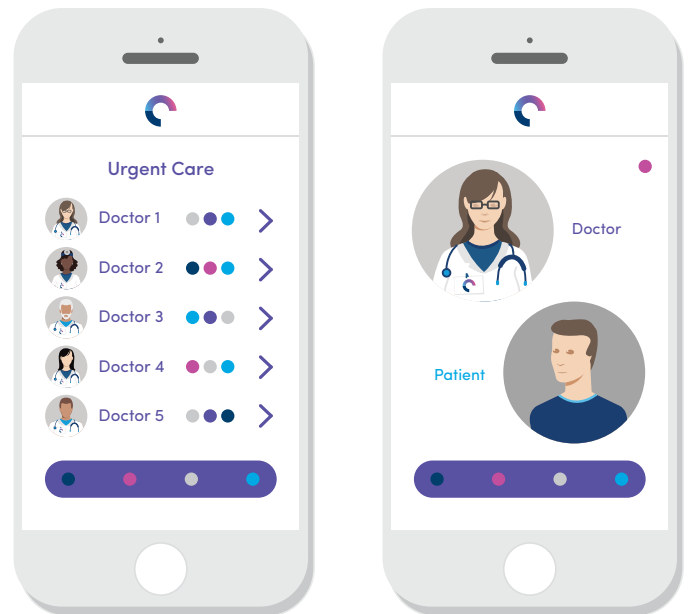

Members experiencing common, non-emergency medical issues can receive one-on-one video consultations for a fraction of the cost of a traditional visit to the urgent care center. Virtual visits are often more affordable because we eliminate significant overhead and pass the savings to you.

## Unlimited Care

Video Visits are available to members 24/7 with no appointment necessary, and prescriptions can be sent electronically to the pharmacy of their choice. To learn more about how virtual visits can create healthcare efficiencies and better outcomes for you and your employees, please call **888.822.6679** or visit **CanopyHealth.com**.

## One Step Closer to Health

Members can review provider profiles and see a doctor within minutes.
