

The Bay Area's Healthcare Network

At Canopy Health, we believe healthcare can be affordable, clear, and predictable. Our standout feature is the freedom of our members to obtain high-quality care from an alliance of nearly 5,000 top caregivers across the Bay Area. With Canopy Health, our entire network of doctors, hospitals, and care centers are at our members' service - no matter where they live, work, or play.

Our Promise

ACCESS

All members have access to in-network services with the entire Canopy Health alliance of nearly 5,000 providers and 19 hospitals across nine Bay Area counties.

TRANSPARENCY

We've developed clear and accurate cost transparency tools to provide clarity at every point in the continuum of care.

COORDINATED CARE

We optimize care through improved communications and coordination, data sharing, and advanced technologies to achieve preferred patient outcomes.

Access Is Easy for Members

1. Members choose a health plan that includes Canopy Health from one of our select insurance companies - Health Net and UnitedHealthcare.
2. Members then select a primary care physician (PCP) from our medical group partners.
3. A PCP can then refer members to any specialist in the Canopy Health network.

Our Alliance of Providers

We work together to create a single integrated Canopy Health referral network.
